SPHC guideline MOH 2015

Takanga A Fohe vision of “Best Care for Pasefika”

is family and whānau focused? **Trying to be**

- promoting and protecting the wellbeing of children
- makes the rights and needs of children a core focus **No**
- strengths-based approach that protects well-being **Trying**
- provides interventions that are informed by evidence about what works
- provides services that are culturally safe and appropriate
- includes family and whānau and, when necessary, connects them to community supports and services – **Karen Vince**
- provides a safe and competent workforce – **working on it**

SPHC guideline MOH 2015

Key points

- Children who have a parent with mental health and/or addiction issues are at increased risk of a number of poor health and social outcomes.

Inequity

- The quality of caregiver relationships in the first three years of life has a critical impact on outcomes **'Gone Dramidrami' strategy at early stage – needs proper trial**
- Expanding international evidence **refer to COPMIA / Emerging Minds, Worry Workforce**
- Pacific Population is an **'invisible population'**

How we are measuring progress

How are you tracking or measuring progress? (Scott Miller)
(Outcome Rating Scale) feedback forms - likert scale

Experience Surveys through Fiapaipai Deborah Puaga-Crichton
and Matua Papali'i Seiuli Johnny Siaosi

Compliance of forms

What do we see for the future

What are your priorities moving forward and what support do you need?

- Addressing need of Pacific Children in the child and adolescent space in WDHB (**engaging in early intervention/prevention space ie in the community**)
- **SPHC through to our Tupu (Pacific Regional Alcohol and Drug Service)**
- Need to access family members (siblings, extended family who are dependent children in households) **limited by scope**
